

2022 Sport Heritage

FASTER

Inspired by the past, built for the future

Yamaha's XSR Sport Heritage range is like no other. Each model pays tribute to some of the most iconic motorcycles and designs from the company's rich history, while at the same time offering performance minded riders the very latest in terms of engine and chassis technology.

This special combination in which a genuine respect for the past is seamlessly bonded with high performance and timeless beauty is what drives Yamaha's Faster Sons

philosophy. It resonates with those that want to experience great riding, but also want to look stunning while doing just that. Offering a select group of informed riders the freedom to underline their individuality, every XSR model is the ideal blank canvas that allows for easy customisation and personalisation.

The freedom and creativity that XSR models offer can be seen in the many unique and beautiful Yard Built projects that have come

out of the growing custom scene over the last 7 years. Not only inspiring fellow riders, but also greatly inspiring Yamaha in terms of design.

Legend Reborn

XSR900

The XSR900 holds its own on all routes, whether it is on those daydreaming twisty roads or the open straight, it feels at home doing both. Equipped with the most modern electronics package that gives every rider the highest level of controllability in any type of situation. And with its sporty Quick Shifter as well as a relaxed Cruise Control, you can go as you please with this 3-cylinder muscle machine.

Don't be fooled by the timeless good looks of the XSR900, because underneath that 80s sport bike look there's some serious high-performance technology. Not only does it come with the smooth EU5 890cc CP3 engine with a ton of torque, but it's also fitted with a lightweight Deltabox-style chassis with Brembo radial master cylinder, lightweight Spinforged wheels and fully adjustable suspension.

As the emperor of the Sport Heritage range, the XSR900 is the ultimate proof of the Faster Sons philosophy in action. Taking its design inspiration from some of Yamaha's legendary historic machinery, this high-performance motorcycle is the living proof of decades of intensive research and development.

Historic Yamaha Racing influenced design

The XSR900's pure and purposeful design offers a unique blend of timeless sports styling combined with references to Yamaha's legendary Deltabox-framed race bikes of the 1980s. Details like the gap between the café style humped seat and racer-inspired fuel tank – as well as minimalist side panels and hidden rear lighting underline its position as the ultimate Faster Son.

High quality details and premium materials

The XSR900 is fitted with high quality materials throughout. From the superb cockpit detailing, drilled fork caps and forged aluminium foot controls through to the dual colour and dual stitched seat – as well as racer-inspired details like the quick release fasteners and folding passenger pegs – the look and feel of this premium sport heritage bike inspires lasting pride of ownership.

Flexible and relaxed riding position

You'll find that the ergonomics on this outstanding sport heritage bike give you all the flexibility and versatility you need in different types of riding – sports, urban or relaxed. Its slightly rear-biased riding position with wide controllable handlebars give that pure roadster feel – and the relaxed foot position and "sit-in" not "sit-on" seat with rear hump provides a comfortable and secure riding feeling.

Signature XSR full LED lighting

The XSR900 continues with the signature round headlamp that characterises every Yamaha Sport Heritage bike, and now features full LED lighting with a split projector and half round position lamp. The hidden taillight has a smoked appearance that enhances the bike's pure and timeless looks – while compact and bright LED flashers complete the lighting package.

Modern take on historic colouring

The XSR900 pays homage to the past through colouring and graphics referencing historic Yamaha racing motorcycles. The Legend Blue option is a modern interpretation of one of Yamaha's most famous racing colour schemes, underlining the fact that the performance and design implications of the 80s era still have a firm influence in the present day – with the Deltabox chassis as clear proof.

High performance brakes and suspension

No compromises have been made when it comes to the XSR900's technical specification that includes a Brembo radial master cylinder and 298mm dual front discs that gives you high levels of braking power and precise controllability. Fully adjustable USD forks and link-type rear suspension system are easy to set up to suit your needs, and Yamaha's latest superlight Spinforged wheels minimise unsprung weight for responsive handling performance.

Sophisticated electronic rider controls

When you ride the newest XSR900 you can experience the advantages that come with one of the most advanced electronic rider control packages. At the heart of this system is an R1-derived 6-axis Inertial Measurement Unit which controls the Lean Sensitive Traction Control, Slide Control System (SCS) and front wheel LIFt control system (LIF) for secure riding in different conditions. Modes can be selected and controlled via the full colour TFT meter.

Versatile high-torque EU5 CP3 889cc engine

Yamaha's 889cc CP3 engine is the perfect match for the XSR900's sporty and versatile Deltabox chassis. Producing high levels of linear torque, this smooth and controllable inline 3-cylinder engine is ready to deliver whatever style of riding you feel like at the time. Ride it hard for thrilling adrenaline performance, or let it pull at lower rpm in a higher gear when you want to take it easy. And with its specially tuned intake and exhaust sound, every ride is an aural experience. Rev or Relax, the choice is yours!

XSR900 Accessories

Racer Pack - XSR900

Embrace the racer heritage of the XSR900 and prepare your bike for the most sportiest riding. The racer pack ensures a great melodic roar coming from the Akrapovic while the all-black brake and clutch levers style your handlebar. Protect your engine with the well-designed side sliders while cleaning up the front and back end with the aluminum front fender and super sporty license plate holder. The ultimate pack to make a mark.

Street Pack - XSR900

Providing your XSR900 with an extra sleek look is easy with the stylish Street Pack. The pack ensures an extra premium finish that easily customises your XSR into an urban hero. Style the front end with the sporty air-vented cockpit visor, headlight guard and black aluminum front fender. Increase your grip on the tank with the knee grips pads for those faster corners and ultimate riding control while the license plate holder cleans up the rear end with an even sportier look.

Born to Challenge

XSR700

The XSR700 is a true legacy machine, earning its stripes on the road. The beating heart of the machine is the versatile character. The XSR700 is a bike to be ridden, anyway you like. From casual cruising to hitting the twisties, the bike can do it all.

An accessible motorcycle that is enjoyable for both new and experienced riders. The 2-part frame, tank construction and seat design are still a key factor in the XSR700, safeguarding the easy-to-customise feature the bike is renowned for.

The character of the XSR700 is defined by the sublime combination of a light and agile frame and the torque-rich, playful CP2 engine. The super nimble bike is easy to steer in any setting, from curves and twisty roads to busy city traffic, you'll have a blast either way.

New XSR family LED lighting

The XSR700 is fitted with a heritage inspired round LED headlight with a split projector and a semi-circular position lamp. The LED tail light features a classically shaped round form, and the compact LED indicators are more subtly shaped, whilst providing outstanding visibility.

Revised cockpit layout with integrated headlight stays

Also classically shaped with modern features, the Inverted LCD meter has been placed in a forward position for improved clarity and visibility. The lines and position are designed to match the all new head light, giving the bike a sleeker “snub nose” look on the front end.

Evolved design details

To accompany the all-black handlebar and levers, the switches have received a technical upgrade, making them more user-friendly. Allowing the rider to access the inverted LCD display remotely. The radiator has also received new side cover and the repositioned headlight has new integrated stays to provide a cleaner appearance.

689cc CP2 high-torque EU5 engine

With the increasing maturity of the XSR700 there are several improvements made both in performance and in safety. As with its CP2 brothers the XSR700 is fitted with the EU5 compliant characterful 689cc engine. Refining the rideability of the XSR700 even more – but keeping every bit of fun with the multi-talented engine performance.

Light and slim tubular backbone frame

For easy manoeuvrability and sharp agility, the XSR700 runs with a slim, light steel backbone frame that is easily customisable due to its two piece subframe. Combined with its compact wheelbase and easy natured suspension system, this strong and light chassis gives a responsive and engaging ride.

Engineered for optimum riding enjoyment

This first machine born under the Faster Sons philosophy delivers genuine retro cool with hints of vintage styling without compromising on riding control. Chassis dimensions and weight distribution have been carefully set to maximise the enjoyment felt during acceleration and give the rider a connected feel with the motorcycle.

Confidence inspiring riding experience

To refine the riding performance the XSR700 has been fitted with new, larger 298mm front brake discs for improved feel and stopping performance, meanwhile the revised front fork and Michelin Road 5 tyres provide enhanced feedback from the road to inspire rider confidence.

Colouring and graphics inspired by Yamaha's past

The colour schemes were influenced from iconic motorcycles of Yamaha's rich history. The famous 2-stroke RD350LC from the early eighties provided the inspiration for the modern interpretation of the colour schemes, resulting in the a crisp Historic White and a more elegant Historic Black combination.

Born for Free Spirits

XSR125

The fashionable new XSR125 has got what it takes to get you there in less time. Its timeless looks and eye-catching colours stand out wherever you go, and the full-power 125cc 11kW engine and agile handling make every trip into work or college a whole lot more fun than going by crowded public transport.

Impact Yellow

Tech Black

The new XSR125 comes with a premium specification that includes LED lights and full LCD instruments just like the larger capacity XSR700 and XSR900 – as well as a lightweight Deltabox frame and USD front forks that give a confident and comfortable ride.

More than anything, the new XSR125 is all about becoming part of Yamaha's stylish and unique Faster Sons movement that includes a whole package of clothing and accessories that match your attitude. It's the sure way to having more fun and freedom, and is ready to make things happen for you.

Redline

Best-in-class 125cc EU5 engine

Delivering a full 11kW – the maximum power allowed in the A1 category – the best-in-class engine is the same as the MT-125 and YZF-R125 design, and features Yamaha's sophisticated Variable Valve Actuation system that ensures optimum power and torque for strong performance and lively acceleration. Fully EU5-compliant design ensures minimal emissions.

Pure and timeless XSR styling

With its strong horizontal line, the XSR125's pure and timeless Faster Sons styling is influenced by Yamaha's larger capacity XSR700 and XSR900 Sport Heritage models. Combining retro design features such as the rounded fuel tank, long flat seat and circular lights with the very latest engine and chassis technology, the XSR125 pays homage to the past while looking ahead to the future.

37mm USD front forks

Featuring a pure black finish that is coordinated with the frame and wheel colour to emphasise the cool retro style, the 37mm USD front forks give you a smooth and confident ride. Along with the Deltabox frame, 17-inch wheels, 1330mm wheelbase and 815mm seat height, this specification makes the XSR125's adaptable chassis ideally suited to riders of all sizes.

Stylish block pattern tyres

The XSR125's lightweight 10-spoke alloy wheels are fitted with great-looking block pattern tyres that provide plenty of traction. The combination of a 140/70-17 rear tyre and a 110/70-17 front tyre gives a confident and predictable handling feeling, making this agile lightweight one of the best ways to explore the city.

Build your dream collection with the free MyGarage app

The MyGarage app is the best way to build your dream collection of Yamaha motorcycles – and it's totally free and available for both iOS and Android! Download the app and you're ready to start creating your very own personalised Yamaha.

With MyGarage you can add or remove a wide range of Genuine Option accessories and view the bike from any angle.

Once you've created your dream bikes you can save them and share with friends – and when you've made the final decision on which version is right for you, simply send it to your Yamaha dealer who will turn it into reality.

MyRide: Take your ride to the next level!

Developed exclusively by Yamaha and available free of charge for both iOS and Android, MyRide App allows all riders to enrich their riding experience, no matter what brand of motorcycle or scooter they own.

With the Yamaha MyRide app, riders can track and analyse in real time their riding performance like lean angle, acceleration and speed through to elevation and braking force making every journey even more rewarding.

Furthermore every ride can be shared with other MyRide users or on social media and, the route can also be exported in to GPX format file. In this way motorcyclists can find new routes and adventures to explore as well as connect with a worldwide community of passionate riders.

Yamaha Offers You

YOU YAMAHA MOTOR SERVICES

Yamaha Offers You

YOU is a full range of premium services that makes every aspect of buying and owning a Yamaha even easier. We want to ensure that you always have an enjoyable experience whenever you come across a Yamaha product.

YOU services make the purchase of every Yamaha more accessible – and Yamaha owners can benefit from the peace of mind that comes with every YOU product.

Take a closer look at the range of YOU services, and you'll see that it is more than buying a Yamaha, but the beginning of a long and lasting relationship.

For more detailed information please consult your local Yamaha dealer or visit our website: www.yamaha-motor.eu/gb/en/services

Yamaha Motor Factory Warranty

When you buy any new Yamaha you can be sure that premium quality and class leading reliability come as standard. And you will also benefit from the added reassurance of a full Yamaha Motor Factory Warranty that covers all parts and labour costs in the unlikely event that your Yamaha requires any unforeseen repairs. *

Yamaha Motor Extended Warranty

We want to make sure that you get maximum enjoyment from your new Yamaha, so upon your purchase Yamaha offers a Yamaha Motor Extended Warranty, to experience carefree riding and the added peace of mind that comes with up to 36 months extra warranty cover! *

Yamaha Motor Road Assistance

If you ever need help in the event of a breakdown you can be sure that we're only a phone call away. Every Yamaha that's protected by a Factory Warranty is automatically covered by Yamaha Motor Road Assistance. And we'll be right there, whenever you need us. *

Yamaha Motor Finance

Yamaha offers a selection of financial services to make the ownership of a Yamaha even more accessible. Yamaha Motor Finance can be tailor-made to suit your circumstances and lifestyle, giving you total flexibility. *

* Terms and conditions apply. Please contact your local dealer for more information.

Be Smart. Keep it Genuine.

To ensure that your Yamaha delivers optimum performance with long-term reliability, we recommend that you always use Yamaha Genuine Parts. Our high-quality spare parts comply with proven safety standards, fit perfectly and have a high resistance to wear - giving you peace of mind.

By using an Official Yamaha Dealer for servicing, you can be sure that all maintenance is carried out by highly skilled Yamaha Technicians using Genuine Parts and Yamalube products.

Our technicians are regularly trained at the Yamaha Motor Academy, giving them the expert knowledge and in-depth experience needed to keep your Yamaha in factory-fresh condition. For more detailed information please consult your local Yamaha dealer or visit our website.
