

2023 Urban Mobility

MOVE

Your best way to move in town

Available in a range of new colours, Yamaha's Urban Mobility models are ready to move you quickly and efficiently around the city. Travelling in your own personal space is more important than ever, and Yamaha's diverse line-up of 2-wheel and 3-wheel vehicles are designed to get you where you want to be with minimum fuss and maximum fun.

The 3-wheel Tricity models are available in 125cc and 300cc options, and with their 2 front wheels giving increased levels of traction and braking, they are the ideal choice for riders who appreciate the enhanced

feelings of stability and confidence associated with the 3-wheel layout. And just like most Yamaha Urban Mobility models, the Tricity 125 and Tricity 300 can be ridden on a 'B' licence* – making them a favourite with urban commuters looking for an easy, enjoyable and affordable way to travel in and out of the city.

Sporty, dynamic and good looking, the NMAX 125 comes with an impressive specification that includes keyless ignition, power socket and large LCD instruments with Bluetooth connection to your smartphone – and with its modern style, lightest in

class weight and economical Stop & Start engine, the stylish D'elight is a favourite with female riders looking for a smart and fashionable way to move.

This is the time for real change. And the new electric NEO's scooter is ready to give you a new sense of freedom in your city! Comfortable, agile and easy to ride, this new generation Yamaha scooter is powered by a lithium-ion battery and driven by a hub-mounted electric motor that gives you strong and controllable acceleration – but with zero emissions and a super quiet ride!

**The Best Move
in Town**

Tricity 300

3-wheel Urban Mobility with Tricity DNA

Yamaha is opening up the world of Urban Mobility to an even wider audience with Tricity 300. Offering dynamic styling and versatile performance together with best-in-class specifications and user-friendly technology, this accessible 3-wheel scooter can be ridden with a full B car licence*, giving more people the chance to move freely around the city.

Economical and powerful 300cc Blue Core EURO5 compliant engine

Driven by a powerful and economical 300cc Blue Core EURO5 engine, Tricity 300 takes Urban Mobility to another level. The liquid-cooled single cylinder 4-stroke engine produces plenty of power for longer distance highway riding – and with its strong and smooth low-speed torque and optimized automatic transmission, you just twist and go!

Standing Assist system

Urban commuting usually involves a lot of stop-start riding, so Yamaha has developed a Standing Assist system to provide added convenience when you stop at lights or junctions.

Lightest in class / Great autonomy

The Tricity 300 is designed to give you the lightweight agility of a scooter with the added feelings of confidence and stability that come with 3 wheels. As well as being the lightest model in the class it's also got one of the highest specifications – and with its 13-litre tank and aerodynamic body and screen, it's the smarter choice for long journeys.

Large storage space

As well as its sporty good looks, sleek bodywork and best-in-class specifications, the dynamic Tricity 300 is also an extremely practical and functional vehicle. There's storage space for two full-face helmets or an A4 briefcase, and you can operate the ignition and locks with the convenient Smart Key. There's also a DC outlet in the front panel for your devices.

LCD instruments and high-quality finish

The Tricity 300 is a high-end vehicle with a quality look and premium finish. Its class-leading specification includes an auto-style instrument panel that displays key information in a clear and easy to understand style. Indicator lights show ABS, Standing Assist System, TCS and ambient air temperature – with a useful warning that comes on at 3°C and lower.

Large diameter disc brakes

The Tricity 300's 3-wheel layout gives enhanced feelings of stability and confidence and is designed to handle a wide range of surfaces and riding conditions. Its best-in-class 267mm diameter front and rear discs deliver plenty of stopping power – and Yamaha's unified braking system and ABS give you greater control in wet or slippery conditions.

Accessible to B driving license

The first Yamaha big engine capacity available for B license owners*

*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two or three wheeled vehicles.

Accessories

Tricity 300 Urban Pack

We know how it feels to be left wanting for more space to stow away essentials, so we equipped the Urban Pack with an integrated rear carrier and beautifully designed 39L top case that gobbles up your helmet, extra luggage or anything else that you throw at it. An integral back rest pad gives your passenger a comfortable ride – and the high screen provides added wind protection while keeping your line of sight clear. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your Tricity 300.

Tricity 300 Sport Pack

The lightweight and stylish Tricity 300 comes with best-in-class specifications which make it a fashionable and dynamic 3-wheel scooter. For an extra dose of dynamism and even sportier looks, the Sport Pack consists of a scratch-resistant sports screen, minimalistic license plate holder with LED rear license plate light, and aluminium lower foot boards with high-grip rubber pads. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your Tricity 300.

Tricity 300 Winter Pack

With its 3-wheel layout, the Tricity 300 gives a new feeling of stability and confidence, making it an ideal vehicle for year round riding, even in cold and bad weather. So now you've got a scooter that you can use in a range of conditions, we thought we'd create the Winter Pack featuring a water-resistant apron as well as handlebar grips heater. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your Tricity 300.

Love the Way I Move.

Tricity 125

Many of us are turning away from crowded public transport systems – and with rising fuel prices and urban parking costs, travelling by car is not always a realistic proposition. So, there has never been a better time to see how the Tricity 125 can give you total freedom in your city.

Driven by the latest EURO5 125cc Blue Core engine with a new Stop-and-Start system, this stylish three-wheel scooter offers lively performance with impressive fuel economy. Its twin leaning front wheels give you increased feelings of stability and confidence when cornering.

Its new chassis with refined rear suspension and a larger footboard area ensure the highest levels of riding comfort – and with the new connected LCD instruments, you can view real-time notifications of incoming calls, social media, emails and texts by downloading Yamaha's free MyRide app.

Tricity 125: Love the way I move.

Petrol Blue

Matt Grey

Sand Grey

New EURO5 Blue Core 125cc engine

The Tricity 125's new EURO5 engine features Yamaha's advanced Blue Core technology that minimises emissions and ensures highly efficient performance. The quiet-running powerplant delivers good acceleration with lively performance that makes this three-wheel scooter ideal for new riders who want a smart and fashionable way to move in the city.

Optimised three-wheel layout

The Tricity 125 is the only three-wheel scooter in the 125cc category and its twin leaning front wheels give you enhanced feelings of stability – especially on bends or bumpy roads. The latest model benefits from a refined LMW Ackermann steering system that gives a more natural and confident feeling when cornering.

New chassis for increased comfort

Once you've experienced the Tricity 125, you'll never want to go back to public transport! Its new frame has been designed to ensure even higher levels of riding comfort and the increased strength of the chassis gives a natural handling feeling that makes the Tricity 125 a joy to ride.

Start & Stop engine technology

For increased riding enjoyment in urban traffic, the new Tricity 125 is equipped with an intelligent Start-and-Stop system. When you are stationary at traffic lights, the engine automatically stops – saving fuel and reducing emissions. As soon as you twist the throttle, the scooter starts automatically for an easy and relaxing ride – even in congested traffic.

Tricity 125 Accessories

Tricity Winter Pack

Winter is a time for festivity, holiday and celebration, and the Winter pack ensures that you experience that same feeling of joy with your Tricity. Keep your hands warm and toasty, whatever the conditions, with the included heated grips. Also included are knuckle visors that channel incoming airflow away from your hands, and combined with the heated grips, provide optimum protection against wind chill. The Apron does an excellent job of protecting your lower body from the cold, wind and rain. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your Tricity.

Tricity Urban Pack 34L

The Tricity is an embodiment of convenience, making commuting simple, easy and fun. With such a high dose of practicality, the Urban pack is aimed at increasing the options for Customers to offer additional comfort and space through its various accessories. The high screen provides greater protection against wind, meaning your journeys will never be tiring or uncomfortable. To increase the storage space, we included the rear carrier and the new 34L top case, which also increases the style of the Tricity. There's no style without substance and we've thought about passenger comfort as well, and include the backrest pad for the top case. We wanted to provide an easy way for our customers to recharge their devices on the go, and hence have included the USB charging port. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your Tricity.

Tricity 125 Connectivity

Discover how to connect your Tricity 125 to MyRide App. It's easy to stay connected when you are riding the Tricity 125 by simply downloading Yamaha's MyRide App to your smartphone and pairing it with the scooter. This free app also enables you to view scooter information on your smartphone and share images and ride information with other MyRiders.

Simply use your mobile's camera to scan the QR code shown here and watch the related video on how to pair your Yamaha Tricity 125 to the MyRide App.

One With the City

NMAX 125

Now is the time to re-consider the way you move around the city, and the NMAX 125 is Yamaha's vision of personal new mobility. Driven by a lively and economical Blue Core 125cc EURO5 engine that can take you around 300 km on a tank of fuel, this easy-to-ride commuter scooter comes with premium finishing and a high specification at an affordable price.

The NMAX 125's sporty and dynamic body features sleek front and rear LED lights and an aerodynamic fairing that offers better protection from the wind and rain. The chassis gives improved manoeuvrability in busy city traffic – and the easy ergonomics make this the most comfortable way to move.

And you'll be amazed at the high-tech that comes as standard! The NMAX 125's Communication Control Unit (CCU) pairs via Bluetooth with your smartphone to give you access to important information – and features like the Smart Key keyless ignition, power socket and underseat storage make everyday life so much easier.

125cc EURO5 Blue Core engine

Whether you're commuting through busy city streets or heading into the suburbs to catch up with friends, the sporty NMAX 125 gives you the ideal blend of performance, fun and economy. The quiet-running 125cc Blue Core EURO5 compliant engine consumes very little fuel and delivers strong acceleration to keep you ahead of the traffic – and the large capacity 7.1-litre fuel tank gives you around 300 km between refills.

Sporty body design

Yamaha is taking the NMAX 125 to the next level with a body design featuring a stylish front cowl with dynamic twin-eye style LED headlight and built-in position lights – while the LED tail light and integral front and rear flashers enhance the premium look and feel of Yamaha's ultimate entry-level 125 scooter.

CCU Communication Control Unit

NMAX is the first scooter to benefit from Yamaha's Communication Control Unit (CCU) that keeps you informed and makes every ride more enjoyable. Download the 'MyRide' app to your smartphone and connect via Bluetooth. You can access a huge amount of technical and running information – and you can even find your scooter with the app's parking locator!* *Using your phone's last connected location, not GPS.

Smart Key System

The NMAX is one of the most sophisticated scooters in its class and it comes with Yamaha's Smart Key system as standard equipment. As long as you have the Smart Key with you in a pocket or bag, this keyless system allows you to turn your NMAX on, saving time and making the whole process much simpler and more convenient. No more messing around looking for conventional keys in a dark car park at night!

High rigidity frame

Hidden away behind the dynamic bodywork the high rigidity frame plays a key role in making the NMAX one of Yamaha's best performing urban commuters. It features a large 7.1-litre fuel tank located in the centre tunnel to give a balanced weight distribution for excellent manoeuvrability. The chassis and bodywork provide a comfortable riding position with increased wind protection and reduced noise.

Traction Control System.

NMAX comes with a Traction Control System that gives you a more confident ride on loose or slippery surfaces such as wet cobblestones or tramlines. When the TCS senses that any rear tyre slippage is about to happen it momentarily reduces drive to the rear wheel so that the tyre maintains traction – allowing you to ride confidently in varying weather and road surface conditions.

Start & Stop

By riding such an economical scooter, you're already helping to lessen your carbon footprint and to further reduce urban pollution and minimise fuel consumption, the NMAX is equipped with a Start & Stop system that cuts in when you come to a stop at traffic lights or on congested streets. When the lights go green, just release the brakes and twist the throttle and the EURO5 engine starts immediately.

Underseat storage space

As well as being Yamaha's sportiest and most dynamic 125cc scooter in the Urban Mobility class, the NMAX also has a practical side that makes it the ideal companion for work and play. Flip up the contoured dual seat and you'll be able to access the spacious storage compartment, which is large enough to accommodate your helmet and other personal items when parked.

NMAX Urban pack

With its compact dimensions and the excellent fuel efficiency the NMAX thrives in the hustle and bustle of the urban environment. To ensure space and comfort, the Urban pack offers the best experience for riding in those built-up areas. The high screen provides robust protection against wind, while it remains resistant to scratches and impact damage thanks to its hard-coated polycarbonate design. The 39L top case offers all the extra space you need and rests on a beautiful piece of alloy rear carrier, with its integrated design and rigorous testing guaranteeing year-after-year security and peace of mind while riding. The lockset for the top case comes included in the pack, while the back rest provides the rear passenger with optimum comfort. The Urban pack will make the NMAX your best friend in the city. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your NMAX.

NMAX Winter Pack

You may want to use your NMAX throughout the year for your commutes. And we want to make sure you ride with utmost comfort, which not only makes your ride pleasurable but also a whole lot more comfortable. In order to keep you protected from the elements, we created the Winter pack for NMAX, consisting of an apron and a grip heater. While the Apron protects your feet from the rain and cold winds, it also has a reflective logo that increases your visibility. The grip heater get plenty of warmth, to keep your hands toasty. Available now from your Yamaha dealer who will be happy to fit these high quality Genuine Accessories to your NMAX.

Move Light

D'elight

Time is the most precious thing you have – and what matters to you is being able to move light into and around the city as stylishly and efficiently as possible. Fun and easy to ride, this attractive urban commuter is one of the smartest, quickest and most economical solutions for personal mobility.

Featuring a fresh unisex look, the latest D'elight scooter delivers all of the above and much more! It's the lightest urban commuter scooter, making it more enjoyable to ride and easier to manoeuvre – and the compact dimensions mean that it's ideal for getting through traffic jams.

Its quiet and economical 125cc engine now features an automatic Stop & Start function to reduce emissions for a cleaner environment, while the storage space under the dual seat can accommodate a full-face helmet. The Yamaha badge means that reliability is assured – and with its extremely competitive price, D'elight makes more sense in every way.

Power Black

Lava Red

Pearl White

Sleek body design and LCD instruments

With its sleek body design the stylish D'elight looks great wherever you go. Featuring a lightweight front cowl and a classic round headlight – as well as an LED position lamp and integrated front flashers – this lightweight urban commuter is one of the coolest scooters in the 125cc category. There's also an LCD display with an analogue meter and warning lights.

125cc Blue Core EURO5 engine

Yamaha's latest generation 125cc Blue Core EURO5 engine features cutting edge technology that ensures maximum efficiency with outstanding reliability. Maximum torque is produced at much lower engine speeds than other models in the class, giving excellent economy with strong acceleration.

Lightest in class

Weighing only 101kg wet, the D'elight is the lightest scooter in its class. Its low weight makes this new unisex scooter so much fun to ride – as well as making it more agile and manoeuvrable in traffic, and easier to park.

Large underseat storage.

The D'elight comes with plenty of storage space under the seat – in fact it's one of the only scooters in the class that can accommodate a full-face helmet. When you're on the move it's the perfect place to carry personal belongings, and is ideal for when you need to pop down to the shops for a few extra groceries.

Move Smart

NEO's

This is an ideal time to consider efficient new urban mobility solutions. The way everybody moves around the city is undergoing a massive transformation as people turn away from congested public transport and look for a simple and accessible way to live, work and move in the city. And NEO's electric scooter is ready for you right now.

Yamaha has been developing and producing electric vehicles for three decades – as well as being recognized as one of the world's most respected manufacturers of high-quality scooters – so you can be sure that the stylish NEO's comes with attractive design, the latest technology and first-class reliability.

Comfortable, agile and easy to ride, this new generation Yamaha scooter is powered by a lithium-ion battery and driven by a hub-mounted electric motor that gives you strong and controllable acceleration – but with zero emissions and a super quiet ride! NEO's: Move Smart.

Midnight Black

Milky White

Smooth, quiet and efficient electric power

Simple, stylish and easy to use, the NEO's electric scooter has the potential to transform the way you live and move in the city by making every journey smoother, easier and more enjoyable! NEO's combines proven Yamaha quality with low running costs and the many benefits of electric power.

Direct drive hub-mounted electric motor

For maximum efficiency, the NEO's is equipped with the latest generation Yamaha Integrated Power Unit (YIPU) that features an air-cooled brushless electric motor located inside the rear wheel hub. This compact direct drive design eliminates the need for gears or belts and ensures smooth running, strong acceleration and extremely quiet operation.

Quick and controllable acceleration

As soon as you pull away on the NEO's, you'll feel its smooth power delivery and precise control at all speeds. Yamaha has taken extra care to ensure that the throttle design provides you with a smooth, confident feeling when accelerating from a standstill and when riding in slow moving traffic – making this electric scooter an ideal choice for all riders.

Universal riding position for all sizes and experience

Featuring a relaxed and upright riding position, the new generation electric NEO's is the ideal vehicle for riders of all ages, sizes and experience who are looking for a responsible and accessible alternative to the car and public transport. And with its simple twist-and-go performance, easy agility and high levels of comfort, this is the smartest choice in zero-emission urban mobility.

Above is a selection of bolt-on accessories available. Please contact your local Yamaha dealer for a full list of accessories and to advise you on the best accessories set-up for your Yamaha. Full list of accessories is also available on our website.

NEO's Connectivity

Discover how to connect your NEO's to the MyRide App. It's easy to stay connected when you are riding the NEO's by simply downloading Yamaha's MyRide App to your smartphone and pairing it with the scooter. This free app also enables you to view scooter information on your smartphone and share images and ride information with other MyRiders.

Simply use your mobile's camera to scan the QR code shown here and watch the related video on how to pair your Yamaha NEO's to the MyRide App.

Specifications

Tricity 300		Tricity 125
Engine		
Engine type	4-stroke, Liquid-cooled, SOHC, 4-valves, Single cylinder	4-stroke, Liquid-cooled, SOHC, 4-valves, Single cylinder
Displacement	292cc	125cc
Bore x stroke	70 x 75.9mm	52 x 58.7mm
Compression ratio	10.9:1	11.2:1
Maximum power	20.6kW @ 7,250rpm	9kW @ 8,000rpm
Maximum Torque	29Nm @ 5,750rpm	11.2Nm @ 6,000rpm
Lubrication system	Wet sump	Wet sump

Build your dream collection with the free MyGarage app

The MyGarage app is the best way to build your dream collection of Yamaha motorcycles – and it's totally free and available for both iOS and Android! Download the app and you're ready to start creating your very own personalised Yamaha.

With MyGarage you can add or remove a wide range of Genuine Option accessories and view the bike from any angle.

Once you've created your dream bikes you can save them and share with friends – and when you've made the final decision on which version is right for you, simply send it to your Yamaha dealer who will turn it into reality.

MY GARAGE
BUILDING BIKES TO BELIEVE IN

MyRide: Take your ride to the next level!

Developed exclusively by Yamaha and available free of charge for both iOS and Android, MyRide App allows all riders to enrich their riding experience, no matter what brand of motorcycle or scooter they own.

With the Yamaha MyRide app, riders can track and analyse in real time their riding performance like lean angle, acceleration and speed through to elevation and braking force making every journey even more rewarding.

Furthermore every ride can be shared with other MyRide users or on social media and, the route can also be exported in to GPX format file. In this way motorcyclists can find new routes and adventures to explore as well as connect with a worldwide community of passionate riders.

YOU

Yamaha Offers You

Yamaha Offers You

YOU is a full range of premium services that makes every aspect of buying and owning a Yamaha even easier. We want to ensure that you always have an enjoyable experience whenever you come across a Yamaha product.

YOU services make the purchase of every Yamaha more accessible – and Yamaha owners can benefit from the peace of mind that comes with every YOU product.

Take a closer look at the range of YOU services, and you'll see that it is more than buying a Yamaha, but the beginning of a long and lasting relationship.

Yamaha Motor Insurance

Yamaha Motor Insurance is designed specifically for Yamaha owners, and simplifies the whole process of getting cover for your Yamaha vehicle.

The range of top quality products covers all aspects of Yamaha ownership, and provides you with high levels of protection at competitive rates, giving you peace of mind for more enjoyable, worry free riding.

With Yamaha Motor Insurance you benefit from an exclusive scheme and can expect a first class service from our dedicated team. *

Yamaha Motor Factory Warranty

When you buy any new Yamaha you can be sure that premium quality and class leading reliability come as standard. And you will also benefit from the added reassurance of a full Yamaha Motor Factory Warranty that covers all parts and labour costs in the unlikely event that your Yamaha requires any unforeseen repairs. *

Yamaha Motor Extended Warranty

We want to make sure that you get maximum enjoyment from your new Yamaha, so upon your purchase Yamaha offers a Yamaha Motor Extended Warranty, to experience carefree riding and the added peace of mind that comes with up to 36 months extra warranty cover! *

Yamaha Motor Road Assistance

If you ever need help in the event of a breakdown you can be sure that we're only a phone call away. Every Yamaha that's protected by a Factory Warranty is automatically covered by Yamaha Motor Road Assistance. And we'll be right there, whenever you need us. *

Yamaha Motor Certified Pre-Owned

It's only a Certified Pre-Owned Yamaha machine if it passes this painstakingly thorough examination. So you have complete peace of mind when riding your Yamaha. *

Yamaha Motor Finance

Yamaha offers a selection of financial services to make the ownership of a Yamaha even more accessible. Yamaha Motor Finance can be tailor-made to suit your circumstances and lifestyle, giving you total flexibility. *
